He was pushing for the earliest completion of the underpinning works on the B4570 so that the road could be reopened. He had been involved in several planning enquiries. He was disappointed to report that there was not yet enough local registered interest to trigger the next stage of broadband installation. He noted the date of the next Community Resilience meeting. Further investigation of means to address flooding in the Teifi valley had been impacted by purdah due to the impending Senedd elections. While river levels were low NRW was restricted from working on the debris at the bridge due to conservation issue due to the time of year. He noted the
