

Bench at Llangoedmor

Rev Bennett had no idea if land was owned by Church. If land is owned by Church he is more than happy to give permission.

Copy of map kindly provided by Clive shows a small area is owned by other than highways and therefore would seem logical it is owned by the Church. Any installation would have to be on this land and leave clear access for the utility poles etc.

Some examples of recycled material low maintenance benches from one company (ex VAT)
