

Llangoedmor Community Council	
Meeting Date:	March 2026
Report Title:	Risk Management Report 2025-26
Agenda Item Number	6.3.3
Paper Reference	Paper March 2025-3
Presented By	Clerk
For	Decision

Introduction

This paper deals with the 2025-26 Risk Management Report.

Background

The Community Council needs to assess the risks to its business on at least an annual basis and set out plans to address these risks. A report dealing with the 2025-26 risks to the Council is attached as Appendix 1 to this report.

The report shows the 2025-26 report rating compared with the risk rating in the 2024-25 year. This allows a comparison of the risks year on year and whether progress has been made in addressing the risks.

There has been limited progress in addressing risks during the year with most risk scores remaining the same. Two risks have moved from the amber to green category during the year meaning the risk score has improved. Five new risks have been identified in the 2025-26 report.

All references to the “2021 legislation” in the report refer to “The Local Government and Elections (Wales) Act 2021”.

Proposal

It is proposed that the Council adopts the risk management report and prepares a timetable for the implementation of the recommendations.
